

Please use the template below to create your design. The shape is an archway that you can walk through. Do not design in the circle in the middle.

Please use your imagination but do reference the mood boards and colour palettes provided!

Practical details:

The boards will be made of marine ply and unless specified not to, given a white base coat. This will be done by people with learning disabilities in our woodwork workshop.

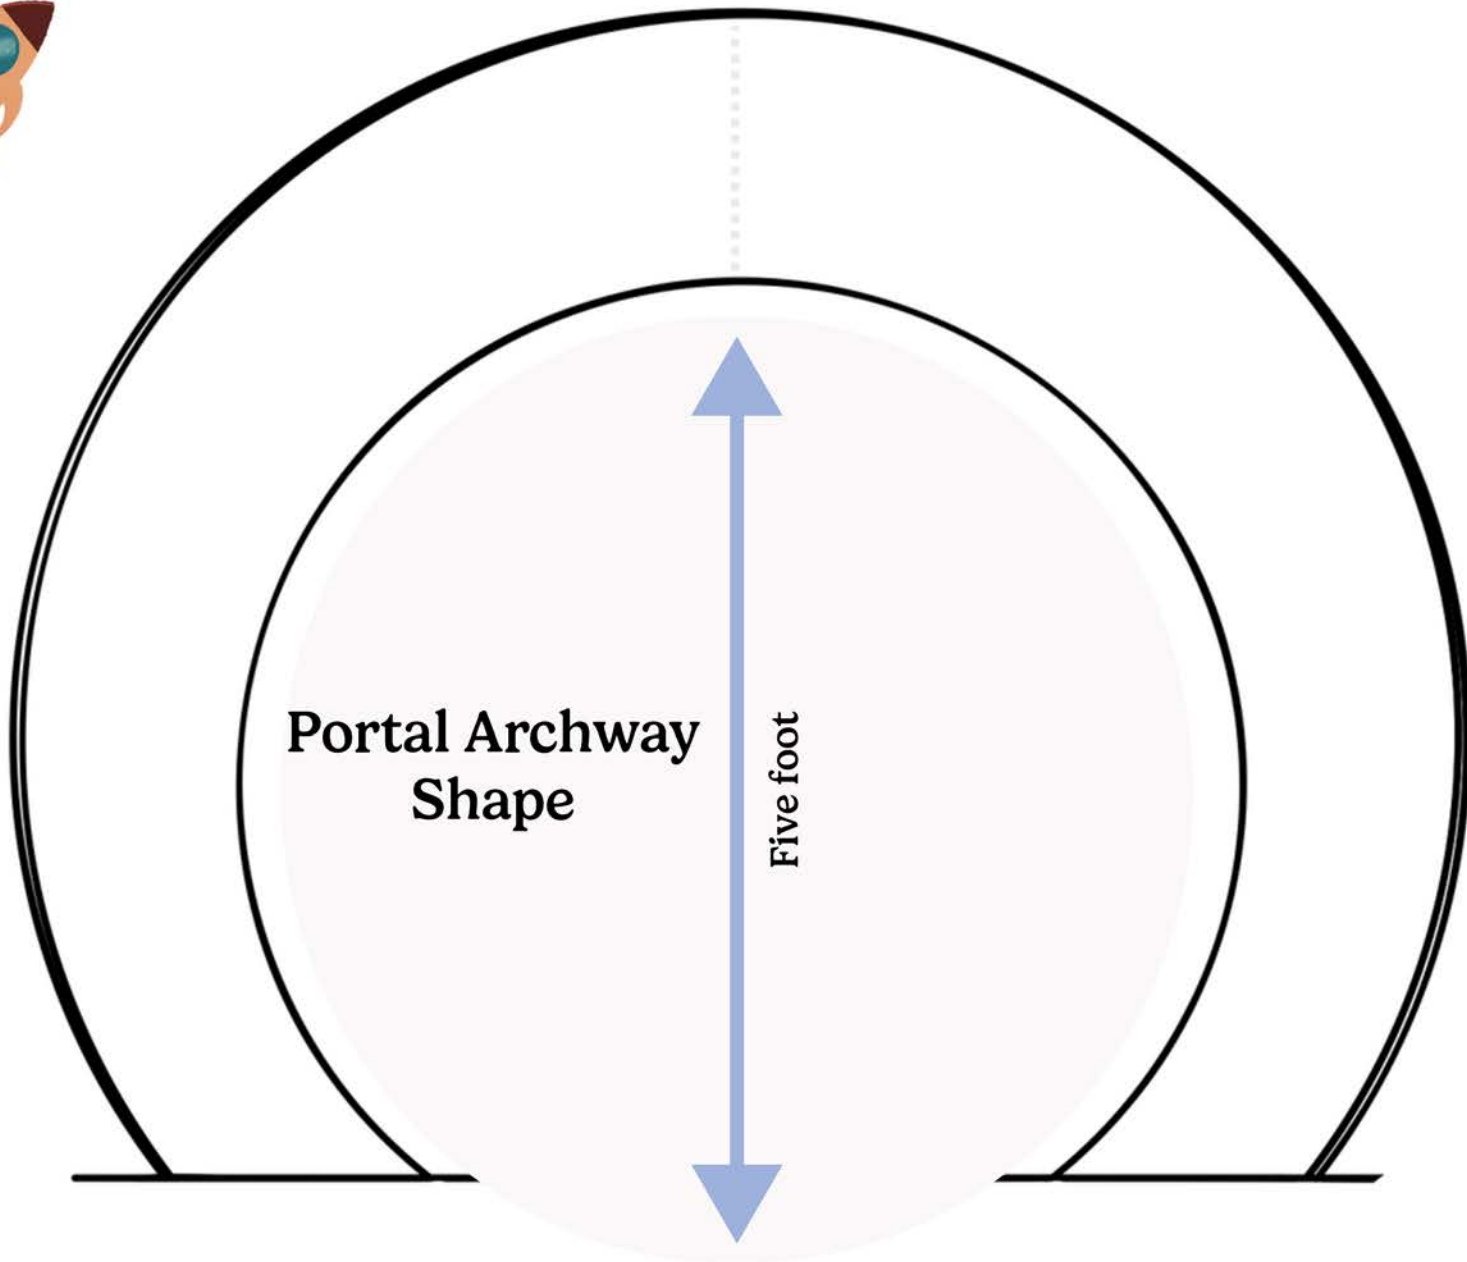

The boards only need to be decorated on one side; they will be attached to a stake and displayed around the garden.

You will need to thoroughly weather seal your creation.

Mixed Media:

Please specify what materials you may be using in your design. You can do this on your template or in the form.

Design title: _____

Artist name: _____

Please note, this shape might differ from the final shape.

This is just for you to show your style.
